California Health Benefits Marketplace

sponsored by

California Health Benefit Exchange

Department of Health Care Services

Managed Risk Medical Insurance Board

***California Health Benefit Exchange
Board Meeting
May 22, 2012***

Where we are and where we're going...

- Developed options and recommendations informed by stakeholder input, review of national lessons and expert advice
- The Department of Health Care Services, Managed Risk Medical Insurance Board, and California Health Benefit Exchange hosted a webinar on May 16, 2012 to preview options
- Providing an overview of options and recommendations for board and community input
- Comments invited both at this board meeting and in writing between now and May 31, 2012
- Staff will make revisions and prepare final recommendations for the Exchange Board
- Exchange Board decisions (likely for June 19th board meeting)
- Further research of outstanding issues and continued work to develop details

Guiding Principles

What follows are draft principles articulated by the Exchange, DHCS, and MRMIB. These guiding principles are reflected in the various options that are being presented.

1. Promote maximum enrollment of currently uninsured individuals in coverage – including subsidized coverage in the Individual Exchange and Small Business Health Options Program (SHOP), Medi-Cal and Healthy Families programs, as well as for individuals who can purchase coverage without subsidies.
2. Build on and leverage existing resources, networks and channels to maximize enrollment into health care coverage, including close collaboration with partners and state agencies with common missions and visions.
3. Consider where eligible populations live, work and play. Select tactics and channels that are based on research and evidence of how different populations can best be reached and encouraged to enroll and, once enrolled, retain coverage.
4. Marketing and outreach strategies will reflect the mix and diversity of those eligible for coverage.

Guiding Principles

(continued)

5. Establish a trusted statewide Assisters Program that reflects the cultural and linguistic diversity of the target audiences and results in successful relationship and partnerships among Assisters serving state affordable health insurance programs.
6. Ensure Assisters are knowledgeable of both subsidized and non-subsidized health coverage and qualified health plans and that Assisters are equipped with the information and expertise needed to successfully educate and enroll individuals in coverage, regardless of the type of program for which they are eligible.
7. Promote retention of existing insurance coverage in public programs and the individual market.
8. Continue to learn and adjust strategies and tactics based on input from our national partners, California stakeholders, on-going research, evaluation and measurement of programs' impact on awareness and enrollment.

“California Coverage” Goals

The goal of the project sponsors is to increase the number of insured Californians. Specific targets for the first years of this effort are to enroll at least the “enhanced” enrollment estimates from the UC-CalSIM modeling:

By the end of 2014:

- **ENROLL 2.8 million** Californians newly eligible for Medi-Cal, Healthy Families, subsidized coverage in the Exchange or enrolling in the Exchange without subsidies

By the end of 2015:

- **ENROLL 3.6 million** Californians newly eligible for Medi-Cal, Healthy Families, subsidized coverage in the Exchange or enrolling in the Exchange without subsidies

By the end of 2016:

- **ENROLL 4.4 million** Californian newly eligible for Medi-Cal, Healthy Families, subsidized coverage in the Exchange or enrolling in the Exchange without subsidies
- **Decrease** the number of the **uninsured by more 2.8 million**

Cost per Acquisition

Findings regarding spending per enrollee for other California public programs, private health plans and other exchange efforts. Research is continuing.

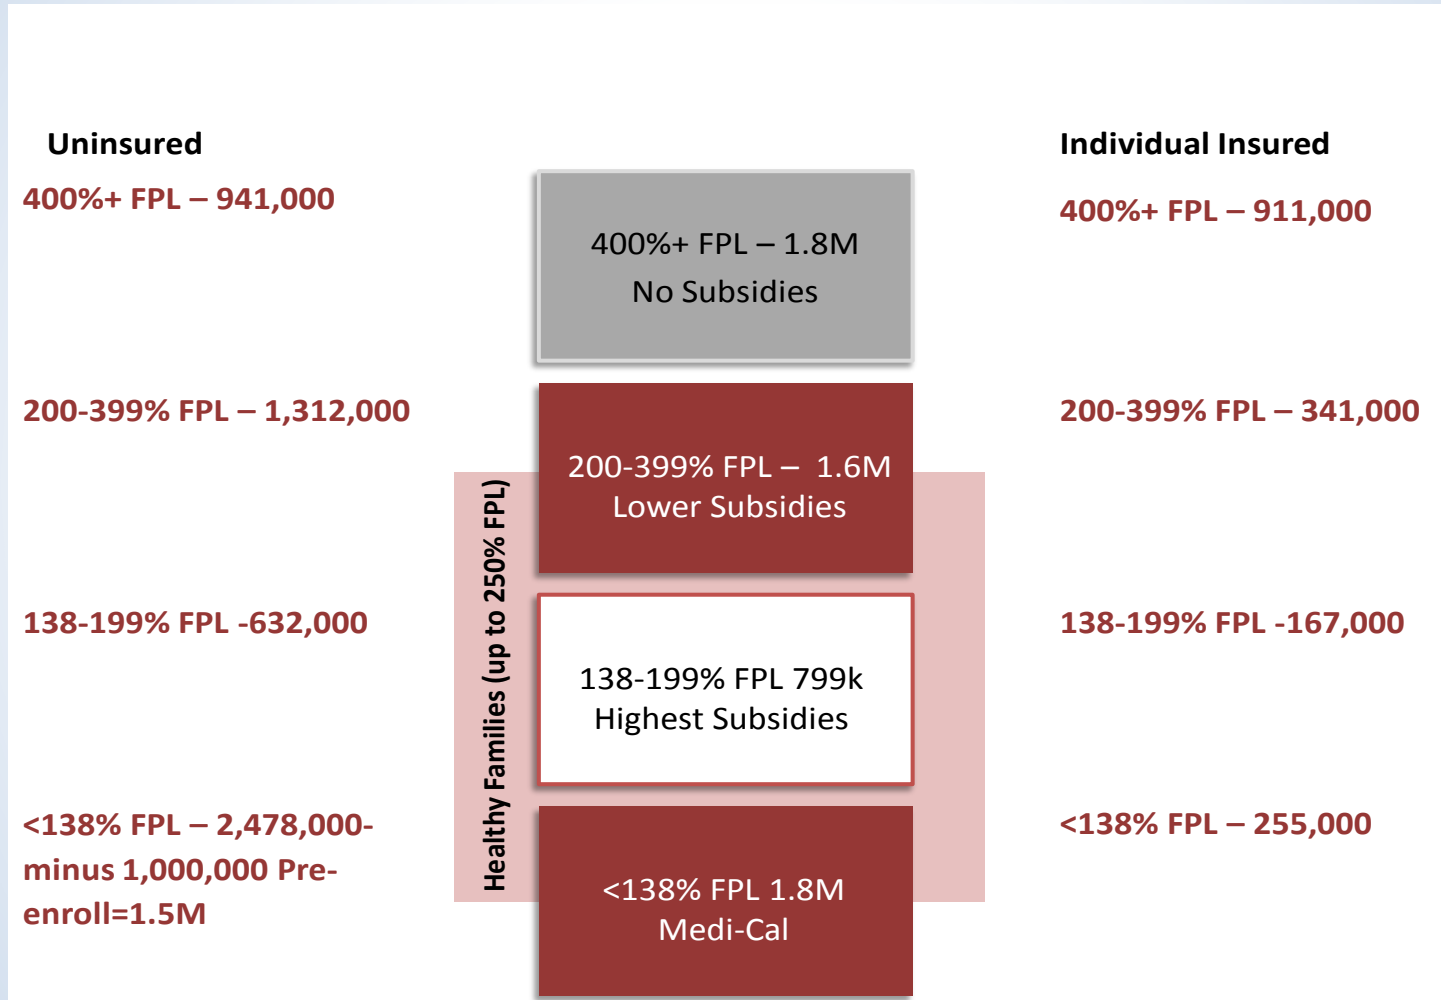

Plan Comparisons	Approximate Cost
Health Plan 1	\$200 - \$350
Health Plan 2	\$350 - \$550

Meeting the Goal of Enrolling 2.8 Million Californians By 2014

Challenges	Solution
<p>Little to no awareness of the Affordable Care Act, the marketplace and its benefits</p>	<ul style="list-style-type: none"> • Use high impact mediums • Heavy weight levels • Start early
<p>Short amount of time between generating awareness and driving purchase/enrollment</p>	<ul style="list-style-type: none"> • High message frequency necessary – persuasion is increased when consumers receive a message multiple times in different contexts/media
<p>A diverse target with various levels of acculturation, that is multi-generational, has very different lifestyle and motivations to purchase within target populations, multiple targets with differing messages</p>	<ul style="list-style-type: none"> • Balance the use of “traditional” and “new” media • Go beyond targeting demographics and make a connection to those who are proactive about health for greater interest and engagement
<p>The cost for mass media is very expensive since the state has 11 television designated market areas (DMAs) and 20 radio metro areas to cover</p>	<ul style="list-style-type: none"> • Extend the budget and magnify its effect by layering media on top of each other in order to surround the target audience with the marketplace message with repetition and intensity

Targeted Ethnic PR, Partnerships & Events

(see Report, pp. 54 – 87 + all phases)

Component	Bronze	Silver	Gold
LATINO, ASIAN PACIFIC ISLANDERS & AFRICAN AMERICAN + OTHER	<ul style="list-style-type: none"> • Significant CBO, NGO and FBO outreach and partnerships within these communities • Limited events presence • Limited paid partnerships • Limited ethnic PR 	<ul style="list-style-type: none"> • Extended CBO, NGO and FBO outreach and partnerships within these communities • Increased events presence • Increased paid partnerships • Ethnic marketplace launch • Increased ethnic PR 	<ul style="list-style-type: none"> • Robust CBO, NGO and FBO outreach and partnerships within these communities • Comprehensive events and festivals presence • Increased paid partnerships • Ethnic marketplace launch • Robust ethnic PR
PROS and CONS	<ul style="list-style-type: none"> • All options provide good coverage and outreach into specific targeted ethnic audiences. Options 2 and 3 provide heavier concentration throughout the year. Given the demographic and cultural breakdown of the eligible uninsured, Options 2 and 3 provide the possibility of higher enrollment numbers. 		

Multicultural Outreach

General Market PR, Partnerships & Events

(see Report, pp. 59 – 87 + all phases)

Component	Bronze	Silver	Gold
PUBLIC RELATIONS	Limited PR, partnerships and events	Extended PR, partnerships and events	Robust PR, partnerships and events
PROS and CONS	In Option 1 the project sponsors manage the majority of PR in-house with limited counsel and advise from a consultant. In Option 2, a consultant would manage the majority of the PR activities with limited support from the project sponsors. In Option 3, a consultant would manage all PR activities.		
PARTNERSHIPS	In-kind partnerships with minimal paid (e.g., 4 sports team partnerships)	In-kind partnerships with increased paid (e.g., 8 sports team partnerships)	In-kind partnerships with increased paid (e.g., 11 sports team partnerships)
PROS and CONS	<ul style="list-style-type: none"> • Paid partnerships with sports teams have proven successful in other states. Since young men are a key target these paid sports partnerships could yield tremendous opportunities. The three levels reflect 4, 8 or 11 partnerships. Fall sports when open enrollment is going on includes nearly all professional sports including football, baseball, soccer and basketball. However, cost is a factor and paid sports partnerships can be expensive. 		
EVENTS	<ul style="list-style-type: none"> • No bus tour • Launch conference • Existing events 	<ul style="list-style-type: none"> • Bus tour (2x) • Launch conference • Increased existing events 	<ul style="list-style-type: none"> • Bus tour (4x) • Launch conference • Optimal existing events including county fairs
PROS and CONS	Bus tour is expensive with small enrollee numbers but will be offset by PR value.

Grant Program Options

(see Report, pp. 57 – 58)

- Under the Partnership component of the marketing & outreach plan, there is the potential option for an education and outreach grant program that would be coordinated with the Assistants Program.
- These grantees would be responsible for delivering in-language education and outreach to diverse target markets with messaging tailored to preferences and helping consumers find assistance resources if needed.
- Any grants program would need to be closely coordinated with similar programs conducted by CA's leading foundations and others.

Grant Program Options

(see Budget Summary, pp. 111)

Component	Bronze	Silver	Gold
Awareness & Education Grants	Grant program for qualifying community-based organizations, faith-based organizations and non-governmental organizations and others serving hard to reach populations.
