QUALITY RATING SYSTEM (QRS) UPDATE

• No Quality Rating System (QRS) information displayed at the outset of open enrollment for October 2013.

• Seek to add Quality Reporting for plans that meet “substantial network similarity” standard (potentially 80%). Need to apply this policy in a consistent and credible manner and will work with health plans and other stakeholders to move to this interim solution as soon as possible.

• A general link to the Office of the Patient Advocate (OPA) website will be created and available on the enrollee selection page, but will not part of the consumer plan selection process.

• The collection of HEDIS and CAHPS information beginning in 2014 remains a contractual commitment for each plan partner and is necessary for the availability of QRS information for open enrollment 2015 and for compliance with plan performance standards as outlined in Attachment 14 to the model contract.

NAVIGATOR GRANT PROGRAM UPDATE

Sarah Soto-Taylor, Deputy Director of Community Relations
NAVIGATOR GRANT PROGRAM

• Required by Federal Law (final rule issued 7/12/13).

• Scope of work will be application assistance, education and outreach on insurance affordability programs. Requires consumer assistance about individual and SHOP marketplace.

• Required to provide Culturally and Linguistically Appropriate Services, and services according to Americans with Disabilities Act, and Sect. 504 of Rehabilitation Act.
NAVISATOR GRANT PROGRAM

Eligible Entities

• Broad range of entities including community and consumer-focused nonprofits, tribes, local human services, and agents and brokers (cannot be paid by a Qualified Health Plan).

• Ineligible are health insurance issuers and stop loss insurance issuers.

• At least 2 different types of entities, at least 1 is a community and consumer-focused nonprofit.

• Required Covered California training, certification and re-certification annually.
Revised June 2014 Implementation Timeline

- Enrollment assistance required to address October 2013 - March 2014 open enrollment will not be compromised by revised timeline.
  - $40 million Outreach and Education Grants (over 250 organizations supporting the Individual and SHOP marketplaces).
  - $3 million Provider Outreach and Education Grants.

- Navigator program implemented in time for 2014 open enrollment (October-December 2014).

- Covered California will assess the Enrollment Assistance Program and Outreach and Education Program effectiveness with actual data (rather than projections) to determine the strategic approach necessary to ensure the Navigator program is cost-effective and garners enrollments.

CHALLENGES:

In-Language Training

- Many grantees reported the need for in-language training, however due to the aggressive implementation timeline bilingual training was not offered during this phase. Instead, interpreters (e.g., in Spanish and Cantonese) were provided at three training sessions. However, only a limited number of trainees used the interpretation services.

Volume of Staff to be Trained

- Initially, grantees projected 1,000 staff to be trained and actual demand was 2,600 in 7 weeks. Covered California met the demand by adding additional training sessions and expanding the size of each session to accommodate more attendees at each of the sessions offered.

Learning Management System (LMS) & Examination Process for Certification

- The LMS system experienced difficulties when administering the electronic examination process to O&E Grantees. Technical issues were resolved on August 1st. To date, no additional issues have been reported.
- Covered California staff received constructive feedback about the examination questions. Based on the feedback, examination questions were focus group tested with the O&E Trainers and revisions were made to exam questions, which have been implemented. The examination questions now place a stronger emphasis on critical components associated with the O&E Grantees' roles and responsibilities and key knowledge required for successful implementation of the O&E Grant Program.
CERTIFICATION EXAM RESULTS*

• 791 participants have completed the exam

• A score of 80% or greater on each of the modules is required to pass the Certification Exam after training

FEDERAL RULES UPDATE

Katie Ravel, Director of Program Policy
Covered California Key Issues

Eligibility and Enrollment (Final Rule)

- Final rule outlines criteria related to the verification of enrollment in, and eligibility for, minimum essential coverage through an eligible employer-sponsored plan.
- Provides states additional flexibility in accepting applicant attestation of income in certain instances.

Program Integrity (Proposed Rule)

- Proposes that QHP issuers offer payment options that do not discriminate against individuals without bank accounts or credit cards.
Large Employer Penalty Delay

• On July 2, 2013, the U.S. Department of the Treasury announced that for employers with more than 50 full-time employees, the penalty for failure to provide minimum essential health coverage to employees would be delayed until January 1, 2015 (originally scheduled to begin January 1, 2014).

• This announcement does not adversely affect Covered California’s efforts to expand coverage to eligible Californians.

• The delay of employer penalty will not affect the timing of the content of policies offered through Covered California or the availability of premium tax credits for individuals who are otherwise eligible.

• Covered California will provide forms to help employees verify employer coverage.
